

1. Implementation of the State Policy on Geodesy, Cartography and Cadastre
AGCC (BG)
2. Current problems of Geodesy in Bulgaria
Ivan Kalchev Tsveten Boev (BG)
3. The First Bulgarian Mareograph Station in Antarctic, Livingston Island
Borislav Alexandrov (BG)
4. On the Use of DEM by Unmanned Aerial Vehicle and Airborne LIDAR Data in Local Geoid Model Determination and Validation
R. Alper Kuçak, Serdar Erol, Emrah Özögel, M. Serkan IŞIK, Bihter Erol (TR)
5. Finite Elements Method in Plane and in Space for Deformation Analysis. Case Studies
Georgi Valev, Keranka Vassileva (BG)
6. Strategy for Obtaining Precise Coordinates and Velocities of Permanent GNSS Stations
Tsocho Danchev, Marinely Dancheva (BG)
7. GNSS Application of GNSS CORS Networks – 1Yocto's experience
Nikolay Nesterov, Jivko Jelyazkov (BG)
8. Refraction Correction Applied to Levelling Observations
Petar Danchev, Nikolay Dimitrov, Ivan Georgiev, Georgi Mihailov (BG)
9. Accuracy of Surveying Works in the Construction of Bridges
Todot Kostadinov, Any Stefanova (BG)
10. Use of Mining Measurements to Monitor the Stability of the Wall of a Sludge Mill Treated with Mining Operations
Alexander Tsonkov (BG)
11. Analysis of the Results of Experimental Measurement of Distances with a Laser Rangefinder to Samples of Building Materials
Milena Begnovska (BG)
12. Modernization and Internationalization of Education in Geodesy and Geoinformation at the Technical University of Munich (TUM)
Walter T. de Vries (DE)
13. Information and Education
Nelly Zdravcheva (BG)
14. Correlation Analysis of the Primary Geology and Geophysics Data for the Marine Geophysical Exploration
Stefan Tachev, Boyko Rangelov (BG)
15. Imaging of Spectral Properties of Dendritic Agate from Dereyalak Village (Eskişehir) – NW of Turkey Using Sensor Data
Oya Erenoglu, Ayten Calik, R. Cuneyt Erenoglu, Emin Ulugergerli, Niyazi Arslan (TR)
16. 3D Modeling of Historical Remains Using Unmanned Aerial Vehicle. A Case Study: Gallipoli Peninsula, Mehmet Yucel, Deniz Yucel (TR) Creating a Numerical
17. Photogrammetric Model in Underground Mine
Veselina Gospodinova, Petar Georgiev, Pavel Ivanov (BG)
18. Remote Method for Forestry Monitoring
Veselina Gospodinova, A. Kandilarov (BG)
19. Nature and Development of Gas Discharge Visualization
Nelly Zdravcheva (BG)
20. Geospatial Modeling in the "Orlova Chuka" Cave
Asparuh Kamburov (BG), Holger Geurliz (DE), Thejasvi Beleyur (DE)

21. Changes in the Forested Areas of the Forest Territories of Bulgaria in the Period 1990 - 2018, Established on the Results of the Corine Terrain Cover Project
Radka Koleva, Yulin Tepeliev, Venceslav Dimitrov (BG)
22. Scientific-Practical Contributions in Atlases under the New Curricula for 2018-2019 in the Republic of Bulgaria
Veneta Kotseva (BG)
23. DEM for the Territory of Bulgaria - Development and Applications
Grigor Nikolov (BG)
24. Geoinformation System Tobel Geodesy
Manuela Kurdeva, Stanislav Stefanov, Alexander Lazarov (BG)
25. Using GIS of Soil Resources to Assess the Impact of Forest Fire on Changing Some Soil Characteristics
Boyko Kolev, Veselin Dalgacheva (BG)
26. The Balance of the Earth - the Main Tool in Spatial Planning
Nadejda Yarlovska (BG)
27. A Surveying Based Study for Determination of Earthquake Disaster Awareness
R. Cuneyt Erenoglu, Oya Erenoglu (TR)
28. An Analysis on Sentinel Data for Monitoring Volcanic Activity in Agung Volcano
Oya Erenoglu R. Cuneyt Erenoglu (TR)
29. Monitoring Postsismic Shell Deformation Using GPS / GNSS Surveying by 06 February 2017 ayvacık-Canakkale Earthquake
R. Cuneyt Erenoglu, Oya Erenoglu (TR)
30. Environmental Monitoring of Fly Ash Storage Site, NW Turkey
Deniz Yuçel Mehmet Yuçel (TR)
31. Preliminary Data on the Structure of the Asthenosphere in Bulgaria
Dimcho Josifov, Boyko Ranguelov, Emil Oinakov (BG)
32. Comparison of Classification Algorithms for Land Use/Cover Detection
Nur Yagmur, Nebiye Musaoglu (TR)
33. Receiving Thematic Spectral Data with Remote Sensing Systems
Denitsa Borisova, Margarita Goranova (BG)
34. Study of the Correlations between Soil Moisture and Active Landslide Processes in Northwest Bulgaria Based on SAR Data
Hristo Nikolov, Mila Atanasova (BG)
35. Determination of Monthly Changes in the Akgol Wetland by Indices
Adalet Dervisoglu, Nur Yagmur, Nebiye Musaoglu (TR)
36. Methods for Detecting Edges in Remote Examination of Objects with the Right Shape
Valentina Hristova (BG)
37. Application of Technologies from Geographic Information Systems in the Management of "Roussenski Lom" Nature Park
Nina Nikolova (BG)
38. Acquisition of Cadastral Information - Opportunities and Problems
Ekaterina Kichekova (BG)
39. Technological Scheme for Collecting Cadastral Information by Unmanned Aerial Capture
Ekaterina Kichekova (BG)
40. Natural Disasters and Fractal Properties of Maldives
Fatima Shadia, Boyko Ranguelov (BG)

41. A Case Study On Multi-GNSS Absolute Precise Point Positioning
Bihter Erol, Serdar Erol, Asude Meryem Karaç (TR)
42. An Overview the 2017 July 20 Mw 6.6 Bodrum–Kos Earthquake by Means of Geodetic and Geophysical Data Analyses
Serdar Erol, Irem K z, Yakup  zhan G r, M. Serkan Iřık, Bihter Erol (TR)
43. Analyzing the Deformations of Bodrum–Kos Earthquake (July 20, 2017, 22:31 UTC, Mw 6.6) with InSAR Method
Serdar Erol, Bihter Erol, Duygu Aky rek, Hemeng l Acar, B. Baha Bilgiliođlu (TR)
44. The Compared of Elevations by Producing Unmanned Aerial Vehicle and Airborne LIDAR Technique in Bergama City of Turkey
Ramazan Alper KUÇAK (TR)
45. Generation of 3d map for Historical rebuilding of Izgrev Quarter, Sofia (1927-1944)
Deivis Dinkov
